Our Services

Dog Adoption Process

When prospective dog adopters visit "Paws and Tails," they can explore a variety of dog profiles available for adoption. After choosing a dog they feel connected to, users submit an adoption request. Our administrative team reviews each application with a focus on ensuring a compatible match between the dog and its potential new home. This meticulous review process helps ensure that each dog finds a loving and suitable environment.

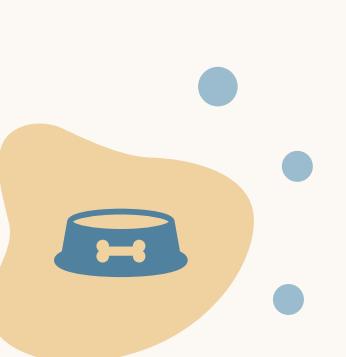

Our Services

Cat Adoption Process

Individuals interested in adopting a cat can browse through our cat profiles and select one that captures their heart. Upon submitting an adoption request, our admin team evaluates the application to determine the best home for each cat, considering factors like living conditions and potential compatibility. Like our dog adoption process, this careful review aims to ensure that all cats are placed in warm, nurturing environments.
